PROFESSIONAL SUMMARY

Experienced Flutter Developer with 4+ years of delivering high-performance, scalable mobile applications across industries. Skilled in building cross-platform apps using Flutter and Dart, with deep expertise in API integration, CI/CD automation, version control (Git, GitLab), and clean architecture. Adept at troubleshooting, debugging, identifying problem areas, designing robust solutions, and leading small teams to deliver client-centric results. Passionate about digital transformation and agile delivery with a strong focus on test-driven development, performance, usability, and maintainability.

WORK EXPERIENCE

Senior Software Engineer-Flutter Developer

RAMP Investments LLC

📅 01/2025 - 05/2025 📍 Remote

- Led the development of high-performance cross-platform apps using Flutter and Dart, increasing responsiveness and improving overall maintainability
- Applied Riverpod, RxDart, and BLoC for efficient asynchronous state management, adopting Clean Architecture to improve code modularity, testability, and scalability
- Integrated Firebase modules—Authentication, Firestore, Crashlytics, and more—to streamline backend operations and reduce crash rates by 35%
- Developed a custom Flutter package using platform channels to access native functionality, boosting app capabilities and performance
- Implemented Hive for secure local data caching, supporting offline functionality and enhancing data security and integrity
- Built CI/CD pipelines with CodeMagic, improving deployment efficiency by 40%
- Mentored junior team members, conducted regular code reviews, and contributed to best practices in Agile development

Senior Flutter Developer

Ant Creatives OPC Pvt. Ltd

📅 02/2021 - 01/2025 📍 Noida, India

- Developed scalable mobile applications using Flutter, leveraging its flexibility to deliver production-level quality
- Applied RxDart and BLoC for handling reactive programming and maintaining a clean, organized state flow throughout the app lifecycle
- Integrated RESTful and Firebase APIs to enable seamless client-server communication, efficiently handling JSON data for real-time updates and dynamic UI rendering in Flutter apps
- Integrated Hive for caching and SQLite for structured offline data storage, ensuring reliable user experience in low-connectivity environments
- Successfully deployed multiple apps to the Google Play Store and Apple App Store, ensuring compliance with platform guidelines and seamless user experience across Android and iOS
- Followed Agile (Scrum) methodology, participated in sprints, reviews, and daily stand-ups to ensure on-time delivery
- Led peer code reviews and provided hands-on mentorship to new Flutter team members

Front End Developer

VenueMonk

📅 11/2020 - 02/2021 📍 Gurugram, India

- Developed and maintained ReactJS-based frontend components, improving UI consistency and load times
- Created Flutter-based mobile apps, ensuring a smooth and responsive user experience
- Integrated and optimized REST APIs, enhancing data retrieval speed and performance
- Collaborated with designers and backend teams to develop interactive and engaging interfaces

Intern - Front-End Development

AppStone Pvt. Ltd

📅 05/2019 - 07/2019 📍 Bhubaneswar, India

- Improved project delivery by assisting senior developers with 2 ReactJS app build
- Reduced integration time by 15% through enhancing ReactJS development and REST API integration skills
